Technical Skills

Technologies

- C#
- .NET (Core / Framework)
- ASP.NET
- SQL / MS SQL Server

Cloud Systems

- Microsoft Azure
- AWS

Quality Assurance & Automation

Professional Summary

Software developer with 4+ years of experience in Core Banking Systems and financial software development. Experienced in C#, .NET, SQL, Azure, and AWS environments. Skilled in both software development and quality assurance across banking and startup projects. Additionally, I have 2 years of experience in teaching and mentoring C# programming. I aim to grow professionally and deepen my expertise in building high-quality, stable, and scalable systems.
